Jérémy Geneste

FULL-STACK DEVELOPER · REACT · NEXT.JS · NODE.JS · GENERATIVE AI

Ivry-sur-Seine (94), France | Email: jeremy.geneste@gmail.com | Portfolio: jeremy-geneste.com | GitHub: jerostax

PROFILE

Full-Stack JavaScript developer with 7 years of experience designing, taking over, and evolving business web applications. Specializing in React.js, Next.js, TypeScript, and Node.js, with hands-on expertise across user interfaces, APIs, databases, and third-party integrations. Comfortable working with technical teams and business stakeholders.

TECHNICAL SKILLS

Front-end: React.js, Next.js, Angular, Ionic, JavaScript, TypeScript, Tailwind CSS, CSS / SCSS

Back-end & data: Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Prisma

Cloud & tools: Git, Vercel, Neon, Heroku, IBM Cloud, AWS, Salesforce APIs, Jira, Apimo, Appian, Agile

AI-assisted development: Claude Code / WSL, security & SEO agents, custom skills, Python hooks, ChatGPT, Gemini API

PROFESSIONAL EXPERIENCE

Delange Immobilier — Full-Stack Developer (Freelance)

October 2026 – Present · Ongoing engagement · Sole technical point of contact

- Took over and secured an existing Next.js 15 / React 19 real-estate application: code audit, approximately 25 prioritized issues, and fixes to API and admin access controls.
- Migrated GitHub, Vercel, and PostgreSQL/Neon infrastructure to agency-owned accounts with no downtime, preserving data and securing environments.
- Improved technical SEO through metadata, structured data, and server-rendered listings; reduced homepage size from 21 to 3.7 MB and mobile LCP from 88.7 to 4.0 seconds (PageSpeed Insights).

EdifiXio / Atos / Eviden — Full-Stack JavaScript Developer

September 2019 – December 2024 · Levallois-Perret / Bezons, France

- **JUNIA — Admissions:** Independently developed front-end and back-end features, including a jury portal for application/interview assessments and an agent portal for group registrations of international students. React, TypeScript, Express, PostgreSQL, Salesforce API, Heroku.
- **JUNIA — Student fairs:** Enhanced a tablet application used to collect prospective students' program preferences. Ionic, Angular, Express, TypeScript, PostgreSQL, Salesforce, Heroku.
- **Internal staffing application:** Independently delivered full-stack features, Jira and Salesforce API integrations, and Salesforce authentication. React, Express, MongoDB.
- **UDIFE:** Worked with a lead developer on an application centralizing business information for funeral services. Next.js, MongoDB, IBM Cloud.
- **MACIF:** Developed an automotive roadside-assistance request website alongside API and design teams. Angular, REST APIs.
- **Jean Stalaven:** Built a product recommendation algorithm for a catalog. Node.js.
- **Touton:** Worked on an application managing cocoa and coffee purchase and sales contracts. Appian.

AI Website Generation SaaS — Full-Stack Development

Ongoing entrepreneurial project · Collaboration with a Business Analyst

- Designing and developing an MVP SaaS for personalized business websites, featuring Gemini-generated content, reusable templates, and a multi-site architecture (Next.js, TypeScript, Prisma, PostgreSQL, Vercel). AI-assisted development using Claude Code and ChatGPT.

AI Development Tooling — Claude Code / WSL (Personal Project)

Version-controlled Claude Code setup under WSL, with structured workflows and technical safeguards.

- Built security and SEO auditing agents and a custom /pr-ready skill (tests, lint, pre-PR checks).
- Developed Python hooks to block direct pushes to main/master and verify translation consistency.
- Set restrictive permissions, protected secrets, and retained human approval for sensitive actions.

Pop Eye — Full-Stack Web Developer (Internship)

March – August 2019 · Station F, Paris

- Developed the web version of the startup's mobile product: React / Next.js interfaces for listings, Node.js APIs, and AWS file uploads, working with the lead developer. MongoDB.

EDUCATION & LANGUAGES

L'École Multimédia, Paris (2018–2019) — RNCP Level II certification, Multimedia Developer. **Distinction:** jury honors.

Languages: French (native) · English (professional working proficiency)
