Jérémy Geneste

Full-Stack Developer · React · Next.js · Node.js · Generative AI

Ivry-sur-Seine (94), France · jeremy.geneste@gmail.com · jeremy-geneste.com · github.com/jerostax

PROFILE

Full-Stack JavaScript developer since 2019: **5 years at an IT services company** (EdifiXio / Atos / Eviden) building business web applications, now **freelancing**. Specialized in **React.js, Next.js, TypeScript, and Node.js**, from the UI down to the database. AI-assisted development (Claude Code), with a clear workflow: one PR per topic, tests, safeguards, human approval.

TECHNICAL SKILLS

Front-end	React.js, Next.js, Angular, Ionic, JavaScript, TypeScript, Tailwind CSS, CSS / SCSS
Back-end & data	Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Prisma, Zod
Testing & quality	Playwright (E2E), Vitest, Node test runner, GitHub Actions (CI), Git, pull request reviews
Cloud & tools	Vercel, Neon, Heroku, IBM Cloud, AWS, Salesforce APIs, Apimo API, Jira, Appian, Agile
AI	Claude Code (agents, skills, hooks, MCP), Gemini API, ChatGPT, Notion MCP

PROFESSIONAL EXPERIENCE

Delange Immobilier — Full-Stack Developer (Freelance) — Oct. 2026 – Present

Sole developer, working directly with the agency's management · Took over an existing Next.js 15 / React 19 site

- **Takeover and security:** code audit (~25 prioritized issues, 3 critical), secured admin and API access, security headers (CSP) checked by E2E tests.
- **Hosting migration** (GitHub, Vercel, PostgreSQL/Neon, DNS) to agency-owned accounts with no downtime; identified the real production database beforehand (283 customer requests preserved).
- **Business integrations:** website inquiries flowing into the Apimo CRM again (blocked for 10 months); legally required fee and condominium disclosures, with rules as tested pure functions.
- **SEO and performance:** server-rendered listings, metadata, and structured data; homepage reduced from 21 to 3.7 MB and mobile LCP from 88.7 to 4.0 s (PageSpeed Insights).
- **Quality:** 21 isolated Playwright E2E tests (mock CRM, test database) and unit tests run before every PR.

PROJECTS

jeremy-geneste.com — Personal website (public code) — Oct. 2026 – Present

github.com/jerostax/jeremy-geneste

- Bilingual site: SEO (hreflang, JSON-LD), hardened contact form (BotID, SPF/DKIM/DMARC), CI required on main. · Next.js 16, TypeScript, Vercel

AI Website Generation SaaS — Sole developer — Jan. 2026 – Present

Personal project with a business analyst: scoping, then development since Sept. 2026 · MVP live, no customers

- **Generative AI:** Gemini content generation with structured output (JSON schema) validated by Zod, run as a background job with state tracking; safeguards against AI fabrication; AI-suggested colors with checked contrast (WCAG).
- Ordering flow through confirmation, 6 languages, all client sites served by a single deployment and routed by domain; 119 unit tests. · Next.js 16, Prisma, PostgreSQL, Gemini, Vercel

AI Tooling (Claude Code / WSL) — Personal project

- Version-controlled setup: rules, permissions, Python hook blocking any push to main (30+ cases tested).
- Read-only security and SEO audit agents and a /pr-ready skill, used on the Delange engagement.
- Notion tracking driven from Claude Code (MCP): tickets, achievements log, client follow-up page.

EARLIER EXPERIENCE

EdifiXio / Atos / Eviden — Full-Stack JavaScript Developer — Sept. 2019 – Dec. 2024

- **JUNIA — Admissions and fairs:** independently built front-end and back-end features: jury portal (application and interview assessments), agent portal (group registrations of international students), tablet app collecting program preferences. · React, Angular / Ionic, TypeScript, Express, PostgreSQL, Salesforce, Heroku
- **Internal staffing application:** independent full-stack development, Jira and Salesforce integrations (APIs, authentication). · React, Express, MongoDB
- **UDIFE:** with a lead developer, app centralizing business information for funeral services. · Next.js, MongoDB

Pop Eye (Station F, Paris) — Full-Stack Web Developer (Internship) — Mar. – Aug. 2019

- Web version of the startup's **mobile product**, with the lead developer: React / Next.js, Node.js APIs, AWS uploads. · MongoDB

EDUCATION & LANGUAGES

L'École Multimédia, Paris (2018–2019) — RNCP Level II certification, Multimedia Developer · Distinction: jury honors

Languages: French (native) · English (professional working proficiency)
